ERASMUS+ TRAINING COURSE

A MILLION VOICES

**07.09-15.09.2018
KRAMATORSK, UKRAINE**

PARTICIPATING COUNTRIES:

UKRAINE TURKEY POLAND ITALY CZECH REPUBLIC LITHUANIA

SUMMARY

Thousands of people are still flocking to Europe for search of safety and better life. However, more often than not they end up in the place that does not want to use their potential, let alone welcome them. How to avoid that? Displaced people (DP) must be integrated better keeping in mind that their potential is an opportunity to grow and advance both culturally and economically. This is also true for internally displaced (2 million in Ukraine alone). Our diverse consortium of youth NGOs believes that youth work could be the main driver of integration; thus, a project "A Million Voices" will be hosted.

The main goal of this project is to make sure that NGOs and young people are aware of the successful means of integration through youth work and understand their ability to help the DP through various (social) activities.

The objectives to reach this goal are to:

- exchange good practices of DP inclusion
- raise the qualifications and competencies of youth workers by developing new methods for DP inclusion
- help local youth learn how to communicate with DP and lower their xenophobia
- spread the main idea of the project to other NGOs and the general public

In order to achieve the project's objectives and ensure project's continuity, we will first organize a training course for youth workers in Kramatorsk, Ukraine (September 7-15, 2018, 4 participants / country aged 18-30), followed by a youth exchange in Kaunas, Lithuania (November 2018, 6 people per country, aged 18-30, including team leaders from the TC).

The project will greatly impact project participants. Among other things, they will learn, exchange and share new methods and tools for successful migrant integration through youth work; learn about the DP communities first hand; better understand how to communicate with them; learn how to organize social activities with and for migrants, as well as how to create long-term plans for DP inclusion and disseminate project results to the public. Likewise, the project would help all the participating organizations grow internationally and reach their objectives of youth development.

In the long-term, the expected impact is that more organizations would integrate displaced people into their work with youth. This would allow youngsters to develop in a diverse environment; thus, building up their tolerance. In the meanwhile, the migrants would get a chance to build up links with the locals, make friends & integrate into the society faster.

The impact would by far be the greatest in Ukraine, which at the moment lacks the means to cope with the IDP crisis it faces. That is why, there is an urgency for projects such as "A Million voices".
